

VVWRA Wins National Recognition as Community Water Champion

We are proud to announce that the Victor Valley Wastewater Reclamation Authority (VVWRA) has been honored with the Champions in Water award from WateReuse. General Manager Darron Poulsen accepted the award during a ceremony in Los Angeles on March 9, 2026.

This prestigious recognition highlights our commitment to resource recovery and the vital role recycled water plays in our community's future. As both

the administrator and the largest producer of recycled water in the High Desert region, VVWRA remains dedicated to protecting our local environment through innovative reclamation and energy-efficient operations.

Strong community partnerships drive our mission, as well as a forward-thinking approach to sustainable water use. This award is a testament to the hard work of our entire team and our shared vision of securing water resources for future generations.

Thank you to the WateReuse Association for this honor, and to our member agencies and partners for their continued support in making the High Desert a leader in water innovation.
